

# Overview of Immanuel Skills Development

*In Mastering leading people through the Immanuel Approach the easiest place to start is by practicing “passing the peace”.*

*When you have been practicing “Passing the Peace” with different people for a while you will be ready for and love the extra elements offered in “Approaching Immanuel”.*

*It feels so good being able to lead people into perceiving and interacting with God’s presence.*

*When you are doing well using Passing the Peace and Approaching Immanuel you are off and running.*

*With these core skills in place learning the rest of the Immanuel Approach and the theory it utilizes becomes a joy and greatly adds to your resourcefulness as a facilitator.*
